

Environmental Aspect List:

- Gas emissions to atmosphere (CO₂).
- Use of Electricity.
- Use of gas.
- Low level use of oils/grease/paint and other engineering product.
- Waste water/dirty water.
- Use of hydraulic oils.
- Minimal use of chemicals.
- Packing material use.
- Water consumption.
- Use of fuel for transport.
- Production waste electrical and electronic products.
- Production of Commercial waste.
- Traffic/Parking.
- Appearance/house keeping.
- Office consumables (Printer, paper, etc).
- Use of raw materials (steel).
- Supplier impact.
